

DEEP CLEAN POROUS TILES WITH **SHIFTER**

SHIFTER will remove all soil and spillages including foodstuffs, drinks, cooking oil, general dirt and road grime from hard, unsealed floors, walls and paintwork. SHIFTER is ideal for extracting soil from troublesome porous floors particularly hard-to-clean ceramic tiles and quarry tiles.

LET'S TALK WHAT IS SHIFTER?

Shifter is an orange, fragrance-free heavy-duty detergent that powers into grout and pores to dissolve trapped dirt, grease, food spills without redepositing soil. Biodegradable and non-flammable, it has low-medium stable foam perfect for autoscrubbers, prevents soil return on porous tiles, and is ideal for supermarkets, kitchens, factories while being chlorine-free and recyclable.

Shifter 5L **SHIF5**
Shifter 20L **SHIF20**

KEY BENEFITS

**NO REDEPOSIT
CLEANING**

Prevents redeposition of soilage keeping floors cleaner for longer

**AUTOSCRUBBER
FRIENDLY FOAM**

Low-foaming ideal for autoscrubbers and pressure washing

**POROUS TILE
SPECIALIST**

Shifts dirt and grime from hard to clean porous, ceramic tiles and quarry tile

**FRAGRANCE
FREE**

Fragrance-free perfect for food areas and odour-sensitive sites

WHEN & HOW TO USE

At the above detergent levels, it may take a week to remove an accumulated heavy film of soil from hard to clean ceramic tiles.

To speed up the process, SHIFTER may be applied to the floor at 1 in 20 with water and left to dissolve the dirt for at least 10 minutes. Scrubbing (without squeegee) will assist.

Please see PDS for further application instructions.
