

What is Handpass?

HANDPASS is a non-thickened anti-bacterial liquid hand soap that provides a rich foam lather. It is designed to be dispensed from special foaming hand soap dispensers that deliver the soap in the form of a foam rather than a liquid or lotion. This is a more economical way to dispense the hand soap.

Key Benefits

- ✓ More economical than bar and other liquid soaps
- ✓ No waste, no pilferage and less chance of over-use
- ✓ Gentle enough to be used throughout the day
- ✓ Leaves the hands soft and supple
- ✓ Kills germs

How Does It Work?

HANDPASS instantly produces a rich lather that floats away dirt and grime from the hands and leaves the skin soft and supple. HANDPASS contains aloe vera, glycerine and other moisturisers to enrich and care for the skin.

For Use On...

HANDPASS is a gentle hand cleanser for use in offices, washrooms and factories where moderate to light soilage must be washed from the hands. HANDPASS has no fragrance and is suitable for use by food-handlers.

Technical Data

Composition

HANDPASS is a gentle soap containing a blend of mild coconut oil derivatives conditioned with glycerine, aloe vera and other moisturising ingredients. It does not contain triclosan.

Active Ingredient: PCMX 0.3% (3000ppm)

Properties

COLOUR – Blue/Green
 APPEARANCE – Mobile liquid
 ODOUR – Characteristic Odour
 pH = 5.5 – 7.0
 FOAM – Rich stable foam

Environmental Care

HANDPASS conforms with all statutory environmental requirements. It is based on non-toxic ingredients selected to perform efficiently so there is no waste or damage.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

- HANDPASS is only for use in special 'foaming' hand soap dispensers. Add the product to the reservoir in this type of dispenser.
- Wet hands and apply a small amount of the foam of HANDPASS to the hands (one or two squirts).
- Rub hands to spread the foam.
- Rinse hands and dry. HANDPASS will quickly float away dirt and grime.

Disposal Information

1. Used solutions -

Used Solutions of HANDPASS should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container). If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Product Data Sheet

Product Code: HAND

Issued: August 27, 2025

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. HANDPASS containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L
