

What is Methylated Spirit?

A solvent for removing soilage and stains caused by adhesive tape marks, cosmetics, handprints, fats and some types of ink. It is also a powerful germicide.

Key Benefits

- ✓ Removes sticky residues
- ✓ Removes some types of ink
- ✓ Powerful germicide
- ✓ Fast drying
- ✓ Great glass cleaner

How Does It Work?

METHYLATED SPIRIT is suitable for removing adhesive tape marks, cosmetics, touch marks, fats and some types of ink stains from hard surfaces. It is particularly useful for removing random spots and marks from windows. METHYLATED SPIRIT also kills many germs and is therefore a useful sanitiser for toilet seats and other fittings. It dries without leaving any residue.

For Use On...

METHYLATED SPIRIT is a solvent for removing soilage, spots and stains from hard surfaces, including glass, which require fast, clear drying.

Technical Data

Properties

COLOUR – Transparent colourless to pale green liquid
ODOUR – "Bitter" solvent odour like alcohol
pH = N/A

FLAMMABILITY – METHYLATED SPIRIT is a flammable liquid. The vapour can also burn with an invisible flame. Do not use near ignition sources such as cigarettes, fires, heaters, stove, televisions, computers, welders, etc.

Dangerous Goods Classification

METHYLATED SPIRIT is a Class 3 flammable liquid.

U.N. No: 1170	CLASS: 3
PACK GRP: II	HAZCHEM: 2[Y]E

Environmental Care

METHYLATED SPIRIT conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. METHYLATED SPIRIT containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

- Apply neat METHYLATED SPIRIT from a clean cloth directly onto the stain or spot.
- Rub until the stain has dissolved.
- For window cleaning, METHYLATED SPIRIT may be diluted with water.
- For best results as a surface sanitiser, apply a solution made of 60 parts METHYLATED SPIRIT plus 40 parts of water.

Disposal Information

1. Used solutions -

Used METHYLATED SPIRIT will evaporate until dry.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, small amounts may be poured onto dry concrete outdoors where it will soon evaporate.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. METHYLATED SPIRIT containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L, 20L
