

What is SD-37?

SD-37 is a fast-reacting, powerful detergent suitable for a diverse range of degreasing and heavy-duty cleaning tasks. It is a lemon-scented cleaner.

Key Benefits

- ✓ Attacks all oily, fatty dirt and washes it away easily
- ✓ A thousand and one uses in workshops, factories, garages – in fact, anywhere you find dirt, oil and grease
- ✓ Foaming cleaner that removes grease and fat from food and meat preparation areas
- ✓ Great for shower-cleaning – removes body fat and soap build-up

How Does It Work?

SD-37 is an alkaline water-based solvent cleaner suitable for use on all washable surfaces.

This concentrated detergent:

- Rapidly loosens dirt, fat and soot allowing it to be washed away
- Is very versatile and excels in a variety of cleaning tasks

For Use On...

SD-37 removes the toughest dirt, mud, oil films, grease, grime and soot from floors, equipment, machinery, walls, showers and vehicle bodies.

It is suitable for cleaning walls, ceilings, floors, sinks, cupboards, baths, showers, car and truck engine bays, stainless steel, glass and porcelain. It is also effective on outdoor furniture, caravans and awnings, car interiors and vinyl upholstery.

SD-37 may be used in mop buckets, autoscrubbers and steam cleaners, as well as by spray-and-wipe.

CAUTION: Do not use SD-37 on water-based paintwork or on painted surfaces that are in bad condition.

Technical Data

Properties

COLOUR – Transparent orange liquid
ODOUR – Lemon perfume
pH = 12.5 – 13.5
FOAM – Medium foam height

Environmental Care

SD-37 conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. SD-37 is non-flammable and contains biodegradable surfactants. Containers are recycled wherever possible. SD-37 containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

LIGHT SOILAGE:

Dilute to 1 in 50 with water.

MEDIUM SOILAGE:

For spray-wipe cleaning dilute to 1 in 30 with water.

HEAVY SOILAGE:

Dilute to 1 in 5 with water. This is ideal for cleaning ovens, BBQ's, walls, dirty paintwork and machinery.

SCRUBBING FLOORS:

Dilute to 1 in 60 with water.

- Apply the solution using a spray, mop or sponge and scrub lightly, then rinse off or wipe clean using a mop or a clean cloth.

PRESSURE WASHING:

Dilute to 1 in 160 with water.

Disposal Information

1. Used solutions -

Used Solutions of SD-37 should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Product Data Sheet

Product Code: SD37

Issued: June 18, 2025

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. SD-37 containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L
