

Product Data Sheet

Product Code: SPRU

Issued: November 20, 2025

What is Stainless Steel Oil?

STAINLESS STEEL OIL is a mineral oil blend for protecting steel surfaces. It enables finger-marks and smears to be wiped off easily.

Key Benefits

- ✓ Makes polishing easy
- ✓ Prevents finger marks
- ✓ Protects steel surfaces

How Does It Work?

STAINLESS STEEL OIL deposits a very thin film of mineral oil that protects stainless steel surfaces.

For Use On...

STAINLESS STEEL OIL is designed for use on stainless steel panels around lifts, doorways and escalators in building and offices. It also finds use on Stainless Steel appliances such as refrigerators.

Technical Data

Composition

STAINLESS STEEL OIL contains fine paraffinic oils extended with inert solvents to facilitate spreading to a very thin film.

Properties

COLOUR – Transparent amber liquid
ODOUR – Mineral turpentine odour
FLAMMABILITY – STAINLESS STEEL OIL is FLAMMABLE. Do not use near ignition sources such as cigarettes, fires, heaters, stoves, TV's, computers, welders, etc.

Dangerous Good Classification

STAINLESS STEEL OIL is a Class 3 flammable liquid.

U.N. No: 1993	CLASS: 3
PACK GRP: III	HAZCHEM: 3[Y]

Environmental Care

STAINLESS STEEL OIL conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. STAINLESS STEEL OIL is phosphate-free. STAINLESS STEEL OIL containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
STAINLESS STEEL OIL	Brown	9	Stainless Steel Care

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

- Apply a small amount of STAINLESS STEEL OIL to a clean cloth.
- Wipe a thin film of the oil onto the steel surface then give it 5 minutes to dry.
- Polish the surface to even up the film. If the surface has dry streaks, apply a little more oil.
- Avoid applying an excessive quantity as this may collect dust.
- The surface will now be protected from staining and marking.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Disposal Information

1. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container). This product should not be poured down the drain. It can be taken to a Council Waste facility to be treated as for flammable liquids.

Remember, do not mix different cleaning products together during disposal!

2. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. STAINLESS STEEL OIL containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L

Dispensing Accessories:

500ml Spray Bottle – Code D09

Trigger, Solvent-resistant, black – DTCR
