

CHEMICAL SPILL KIT

LOCATED HERE

Keep the spill kit accessible and check contents regularly.

EXACT LOCATION / AREA:

USE THE SPILL KIT WHEN

1. A minor spill can be managed safely.

2. Staff are trained and wearing the required PPE.

3. The SDS and local procedure have been checked.

4. Waste can be contained and disposed of correctly.

DO NOT ATTEMPT CLEAN-UP IF

1. The spill is large or unknown.

2. Vapours, fire risk or unsafe conditions are present.

3. You do not have the correct PPE.

4. Emergency response is required.

ALWAYS REMEMBER

Wear the PPE required by the SDS.

Do not mix chemicals.

Keep spill kits accessible.

Use emergency eyewash or shower where required.

Keep current SDS and emergency contacts accessible.
