

CLEANING CHEMICAL APPLICATION & PPE GUIDE

Choose the right chemical for the task.

Always follow the product label, SDS and school procedure.

CHEMICAL	TYPICAL USE	CHECK	PPE
1 NEUTRAL CLEANER 	 General hard-surface cleaning.	 Suitable for daily cleaning.	 Gloves if required by label or SDS.
2 DISINFECTANT / SANITISER 	 Touchpoints and hygiene-critical surfaces.	 Correct contact time.	 Gloves and eye protection where required.
3 GLASS CLEANER 	 Mirrors and glass.	 Use on compatible surfaces only.	 Gloves where required.
4 DEGREASER 	 Greasy soil and maintenance cleaning.	 Stronger products may need more controls.	 Gloves and eye protection where required.
5 TOILET / BATHROOM CLEANER 	 Toilets and bathroom fixtures.	 Never mix with other chemicals.	 Gloves and eye protection where required.

BEFORE YOU USE A CHEMICAL

 1 Read the label.	 2 Check the SDS.	 3 Wear the required PPE.	 4 Use the correct dilution/dispensing method.	 5 Never mix chemicals.
