

# SAFE CHEMICAL STORAGE

— Store chemicals safely. Protect people. Prevent spills and reactions. —

## 1 KEEP IN ORIGINAL OR APPROVED LABELLED CONTAINERS

Labels must stay readable.

## 2 KEEP CONTAINERS CLOSED

Secure lids after use.

## 3 SEPARATE INCOMPATIBLE CHEMICALS

Follow the SDS and school controls.

## 4 STORE IN A SECURE, WELL-VENTILATED AREA

Restrict access where required.

## 5 KEEP AWAY FROM FOOD, DRINK AND UNRELATED MATERIALS

Never store chemicals with consumables.

## 6 USE SPILL CONTAINMENT AND KEEP THE AREA TIDY

Clean up leaks and report damage.

## CHECK REGULARLY

Damaged containers.

Leaks or residue.

Expired or unwanted stock.

Missing labels or unreadable instructions.

## REMEMBER

Read the SDS before storage or use.

Do not decant into food or drink containers.

If you are unsure, ask your supervisor.
