

SANSOL

FOAMING HEAVY DUTY BATHROOM CLEANER

SANSOL is an acidic Hospital Grade Disinfectant with excellent biocidal properties, proven to kill HIV, Hepatitis B, Norovirus and odour causing bacteria.

SANSOL can be quickly and easily applied through a foaming gun, helping address key Work Health and Safety issues when maintaining bathrooms: reducing the risk of infection, and providing clean and safe environments.

Using Sansol to clean commercial bathrooms and shower blocks cuts cost of labor by up to 50%. It effectively removes body fats and oils, hard water carbonate deposits, rust, urine and faeces stains,

soap scum, algae and mildew. SANSOL has also been successfully used on ventilation systems to eradicate odour causing bacteria.

Key benefits:

- ✓ Kills HIV, Norovirus and Hepatitis B Virus
- ✓ Foaming application saves time
- ✓ Cuts labour costs up to 50%
- ✓ Long lasting deodorisation by killing odour causing bacteria
